

In the Claims:

Please cancel claims 1-11, 13-24, and 26-61, replace claims 12 and 25, and add new claims 62-70, all as shown below.

1-11 (Canceled)

12. (Currently Amended): A document management system for representing an entity as a document using a data source having an associated ~~property~~ properties and content information related to the entity, the system comprising:

a bit provider configured to:

i) identify the data source as having the associated ~~property~~ properties independent of a specific user request associating the associated ~~property~~ properties and the data source;

ii) retrieve the content information from the identified data source;

iii) provide the retrieved content information as at least a portion of the document;

and further wherein at least one of said properties is an active property having associated executable code that affects the behavior of the document within the document management system.

13-24 (Canceled)

25. (Currently Amended): The system of claim 12 24, further comprising:
an application interface in communication with the bit provider, the application
interface configured to provide the document to an application, the bit provider further
configured to:

iv) receive additional content information from the application via the
application interface; and

ii) send the additional content information to the ~~identified~~ entity via a
communications path in order to modify the document representing said entity.

26-61 (Canceled)

62. (New): The system of any of claims 12 or 25 wherein the entity is a task.

63. (New): The system of any of claims 12 or 25 wherein the entity is a person.

64. (New): The system of any of claims 12 or 25 wherein the entity is an object.

65. (New): The system of any of claims 12 or 25 wherein the entity is a device.

66. (New): The system of any of claims 12 or 25 wherein the data source is a document.

67. (New): The system of any of claims 12 or 25 wherein the data source is a device.

68. (New): The method of claim 67 wherein the device is a phone.
69. (New): The method of claim 67 wherein the device is a printer.
70. (New): The method of claim 67 wherein the device is a camera.
